Oasis Workflow

Pomáhá automatizovat workflow celé aplikace.

Post Views Counter

Přidá možnost zobrazení počtu zobrazení u daného příspěvku

Please select My Account page in the User Registration -> Settings -> General -> My Account section (My Account Page)

General Display

Post Types Count ☐ Media ☒ Pages ☒ Posts
Select post types for which post views will be counted.

Counter Mode ☒ PHP ☐ JavaScript ☐ REST API
Select the method of collecting post views data. If you are using any of the caching plugins select JavaScript or REST API (if available).

Post Views Column ☒ Enable to display post views count column for each of the selected post types.

Restrict Edit ☐ Enable to restrict post views editing to admins only.

Count Interval 24 minutes
Enter the time between single user visit count.

Reset Data Interval 0 days
Delete single day post views data older than specified above. Enter 0 if you want to preserve your data regardless of its age.

Flush Object Cache Interval 0 minutes
How often to flush cached view counts from the object cache into the database. This feature is used only if a persistent object cache is detected and the interval is greater than 0. When used, view counts will be collected and stored in the object cache instead of the database and will then be asynchronously flushed to the database according to the specified interval.
Notice: Potential data loss may occur if the object cache is cleared/unavailable for the duration of the interval.

Exclude Visitors ☒ robots ☐ logged in users ☐ guests ☐ selected user roles
Use it to exclude specific user groups from post views count.

Exclude IPs
Add new Add my current IP
Enter the IP addresses to be excluded from post views count.

Post Views Counter 1.3.12
